SECTION 02110 – SITE CLEARING

PART 1 - GENERAL

SCOPE OF WORK

Remove shrubs, trees, grass, and other vegetation, improvements, or obstructions, as required, around a 1000 feet radius to prevent interference of the radiated signal from the MKK VOR.

PROJECT CONDITIONS

- A. Only the vegetation around the VOR for a radius of 1,000 feet shall be cleared.
- B. Traffic: Conduct site-clearing operations to ensure minimum interference with the roads and the FAA VOR system and subsystems. Do not close or obstruct roads or occupied or used the FAA facility without permission from authorities having jurisdiction.
- C. Protection of Existing Improvements: Provide protections necessary to prevent damage to existing improvements indicated to remain in place.
 - 1. Protect improvements on adjoining properties and on Government's property.
 - 2. Restore damaged improvements to their original condition, as acceptable to the Government.

EXISTING SERVICES

- D. General: Indicated locations are approximate; determine exact locations before commencing Work.
- E. Arrange and notify affected utility companies in advance and obtain approval before starting this Work.
- F. Place markers to indicate location of services.

PART 2 - PRODUCTS (NOT APPLICABLE)

PART 3 - EXECUTION

SITE CLEARING

- A. General: Remove trees, and other tall vegetation, improvements, or obstructions, as required. Remove similar items elsewhere on site or premises as specifically indicated.
 - 1. Debris, cut trees and vegetation, roots, wood, scrap material, refuse, soft unsound particles, and deleterious materials, shall be fed into a chipper/grinder machine so it can be use as fill material/mulch. Fill material or mulch shall be use to fill depression caused by the clearing and grubbing operation. OR if the tree timber has value to the contractor it may be recycled for their use.
- B. Place fill material in horizontal layers not exceeding 6 inches loose depth, and thoroughly compact each layer to a density equal to adjacent original ground..

DISPOSAL OF WASTE MATERIALS

- C. Burning is not permitted.
- D. Remove waste materials and unsuitable soil from property.

WORK HOURS

The Contractor shall schedule and perform work between the hours of 7:00 AM and 3:30 PM, Monday through Friday, excluding federally established holidays, except when prior approval has been obtained from the Project Engineer (PE). No work shall be scheduled or performed on Saturday, Sundays or holidays without prior approval from the PE. Approval by the PE for overtime work shall not be construed as an agreement for payment of overtime work. If the contractor desires to work overtime, weekends or holidays, the written request for approval shall be forward to the Resident Engineer at least 2 working days in advance.

Protection of Endangered Species

Although this area is not designated as critical habitat for the endangered species of the Hawaiian hoary bat or the Hawaiian hawk, special considerations must be made. The US Fish and Wildlife recommended that to minimize impacts to the endangered Hawaiian hoary bat, woody plants greater than 15 feet (4.6meters) tall should not be disturbed, removed or trimmed during the bat birthing and pup rearing season (**May 15 through September 15**).

Hawaiian hawks nest in both exotic and native woody vegetation. To minimize impacts to Hawaiian hawks the USFWS recommends avoiding tree clearing during their breeding season. (March through September). If the property must be cleared during the Hawaiian hawk breeding season, a biological survey is recommended to determine if hawk nests are present. Due to the small size of the trees on this property Hawk nests are highly unlikely. Trees must be visually inspected prior to felling for the nests. If any are observed the tree shall be marked and not cut down until after September.

The Contractor will not cut down any trees taller than 15 feet until after September 15th

SAFETY

All work shall be accomplished in accordance with OSHA Regulations (Standards – 29 CFR), Part 1926, Safety and Health Regulations for Construction.

Protective Equipment, including personal protective equipment for eyes, face, head, and protective clothing shall be used wherever it is necessary by reasons of hazards or environment [1926.95].

Head protective equipment (helmets) shall be worn in areas where there is a possible danger of head injuries from impact, flying or falling objects, or electrical shock and burns [1926.100].

Eye and face protection equipment shall be worn when machines or operations present potential eye or face injury [1926.102].

Contractor shall have on site a site specific health and safety plan to include emergency procedures in case of injury. Each worker must also be informed of the plan

MAXIMUM ALLOWABLE DURATION:

The contractor shall be required to (a) commence work under this contract within ten (10) working days of Sept 15th, (b) prosecute the work diligently, and (c) complete the entire work ready for use no later than twenty (20) working days. The time stated for completion shall include final cleanup of the premises.

EXECUTION OF WORK

The contractor shall assume full responsibility for the protection and safekeeping of products and equipment stored on the site. The contractor and his subcontractors shall maintain the job site in a neat and orderly condition. This includes the daily removal of rubbish, waste and tools, equipment and materials not require for work progress.

PART 4 - INSPECTIONS:

DAMAGE TO THE SITE

The contractor shall pay all cost repairs. After notice-to-proceed and prior to the commencement of construction, the contractor and the resident engineer shall conduct a joint inspection of the existing area affected by the construction. Damage of defects shall be noted and will be used as the basis for determination of damages caused by the contractors operations.

PROTECTION OF EXISTING UTILITIES, STRUCTURE, AND IMPROVEMENTS

This item shall also apply to roadway, shoulders, slopes, culverts, guard posts, fencing, gates, etc. Where such items are disrupted or damaged, they shall be repaired or replaced at the contractor expense.

PROTECTION AND CLEAN-UP

The contractor shall have the overall responsibility for the performance and enforcement of all forms of protection against the weather, and further the responsibility for repair and replacement of material or equipment damaged as a result of inadequate protection.

- ___ 3.10.6-3/alt5 Termination (Cost-Reimbursement) Alternate V (October 1996)
- _X_ 3.10.6-4 Default (Fixed Price Supply and Services) (October 1996)
- ___ 3.10.6-5 Default (Fixed-Price Research and Development) (October 1996)
- ___ 3.10.6-6 Default (Fixed Price Construction) (October 1996)
- ___ 3.10.6-7 Excusable Delays (October 1996)

(d) Warranty. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(End of clause)

3.4.1-10 Insurance - Work on a Government Installation (July 1996)

(a) The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the "Schedule" or elsewhere in the contract.

(b) Before commencing work under this contract, the Contractor shall certify to the Contracting Officer in writing by letter or certificate of insurance, reflecting the FAA's contract number, that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Federal Aviation Administration's interest shall not be effective:

(1) for such period as the laws of the State in which this contract is to be performed prescribe, or

(2) until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.

(c) The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the "Schedule" or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors' proofs of required insurance, and shall make copies (reflecting the FAA's contract number to ensure proper filing of documents) available to the Contracting Officer upon request.

(End of clause)
